

THE

POWER of why?

At Telethon Kids Institute, we have over 700 superhero researchers working hard to improve the health and wellbeing of kids like yourselves. Our researchers never stop asking questions to make sure that all kids live happy and healthy lives. By asking why, they are able to solve some of the trickiest health problems that affect kids every day.

You can be a researcher too by simply asking questions that begin with **why**. Write your **why** questions down in the speech bubbles and ask an adult or use the internet to find the answers to your curious questions!
